Rev Sheldon Jackson D.D.

Dear Bro

Yours of August 29th
is just received.
I suppose you are
home from New-
Mexico some time
ago. I thank you so
much for the interest
you take in me &
for the trouble you
take to assist me.
My last letter will an-
swer several things

You write in this one, the 1st of August & sent my report to the Board, & stated that there was $180. due me which I stood in great need of, & asked them to please forward it immediately. I also sent the bill of school expenses, as nothing had been paid Mr. Vanderbilt since the 1st of February. This mail I received a letter from Dr Kendall. The following is a copy.

"I write to say the following sums have been sent to you, or on your account since you were to Fort Wrangel.

Oct 10. 1877		$350.00
Nov 30 " "		100.00
Feb 9. 1878	To Sheldon Jackson	
I think —		51.00
June 18th 1878		200.00
July. 17	(Special)	10.00
	Total	711.00

Why it has not reached you is indeed a Mystery & how you have lived is another. This money with the exception of the $8 & the $10. I think has all been sent to & through Dr. Lindsley. Supposed that to be the safest way."

Now what do you think of all this. It simply seems to me a great outrage. I have written Dr

Kenda a letter trying to explain the matter to him & asking him to send me what is due me, & also requesting him hereafter to send my salary direct to me. Dr. K. says "we stand ready to send Miss Dunbar. I wrote to Dr Leindsley in June about it — but got no response. But from what you say, I think we will send her along."
Mrs Leindsley writes: "immediately on the reception of Mr Jones letter my Husband wrote for the Board to commission Miss Hancock & Miss Glossin at

at once for Alaska.
Miss Hancock is ~~his~~
nice. & I presume
Miss Slosin is so.
They Dont Mention Miss
Deibar. I hope she
will be started before
this letter reaches the
board. I have moved
into the Hospital Bui
lding this week. & rec.
ived some girls ~~this~~
~~tomorrow~~. I am not
atall well & as it is
now nearly 1 o'clock
in the morning, I
must stop writing & to
have a little rest.
Poor Mr Vanderbilt
is still in bed but
getting better slowly.
The School is moved

into the Garrison Ed.
Mr Young is very busy.
Yours sincerely
A. R. M. Farland

Post Office Department.

OFFICE OF

SECOND ASSISTANT POSTMASTER GENERAL.

Washington D.C. Oct. 19. 1878.

Rev. Sheldon Jackson,

Dear Bro.

I take pleasure in inclosing to you ~~annual~~ trip passes covering lines from Alamosa to Santa Fe and annuals from Ft. Worth Tex. to Yuma and Santa Fe to Tucson.

They have been cheerfully granted in each case and I trust they may be of much service to you.

We are in comfortable
health, though Mrs. Trunk
is not feeling entirely well.
She has been over worked
and especially overworried
for several months on
account of servantgalism.
We have now however,
as we hope, secured a good
and faithful servant and
hope to get along better.
I have been very busy
during the past two
weeks both in and out
of the office.
An Armenian Turk whom
we met in Fla. last winter

came to us two weeks ago in the very last stages of consumption. I got him into the Hospital, cared for him, and day before yesterday buried him. His was an interesting case. He was a convert of the Am. missionaries in Constantinople many years ago, but had been for 13 years an importing merchant in N. Y. until his health failed. But I cannot now give you his full history.

In haste,

Very truly yours,

J. L. Thurnal

Fort Wrangel Alaska
Oct 17th "/78

Dear Brother Jackson

I was so sick when I wrote you last week That I scarely know what I did write, As I have an opportunity to send Letters To Victoria I thought I would write again. I am feeling much better But not well. My girls are contented & happy. I fear you may think I did wrong to take these girls without first having their support pledged me, but I could not do otherwise than I have done. I dared not just-

off ever for another week, One little girl of 14 (who was in school all last year) I heard was about to be taken up the river by her heathen Mother to be sold. I took Mrs Dickinson & went to see about her. (They lived on Shaaks Island.) When we got down to the point we found the tide so high we could not get over. We called & Katy came over in a canoe, & sent her back for her Mother. She came over & I sat on a rock an hour & a half talking to them, the rain pouring down all the time. Kindly the Mother promised not to take the little girl away. But the next week the Mother went off & did all she could to make Katy go with her, a Gentile man

who was on the beach when they started told me he heard the Mother threatning the little girl with the most terrible things if she did not get in the canoe. The child crying & begging all the time, just when they were ready to start Katy started off saying you may kill me but I will never go. She came to me & could I do else than take her in? Another bright little girl of 12 years coming & begging me to go & see her Mother. Said her Mother wanted to let a white man have her. Said he had been after her, but she wanted to be good. I could write you

Central City Oct 4 - 1870

Dr. Rho - I acknowledge
your very kind letter
from Saguache and at
once - Your encouraging
words did my soul good.
You say God when
you say "fail" is not in
my — "vocabulary". But my
weakest thought you do not
know, when you know and
my letter advised) Kind
reader — before what I am
not persuaded We are
crossing a creek at build-
ing - have a bill of lumber
out, have it on Saturday
and to our hotel, have
checks made out — as
is my obligation to

There is a mistake as to the dimensions of the Cannon Ornix - yet - but by & by - but he Hayden, I was down there a short time ago - They are about 3 or 4 X 6 or 8 ' out of ord. Excuse me for calling attention to it, but I am yet - Sab. I preach at the Methodist, - Preach once a day, and the Females - had prayer meeting this

May thanks for R. M. P. I could often just leave my work & go & see - I am not - I am not - I will not - your friends

(Copy) Denver Col Oct 7th 1878

Dear Bro Gage - Yours of Sept 28 Kindly offering to Canvas for Zuni & the Pueblo Missions is received with thanks. If I understand your proposition it is, that you will give your time, if I can provide for your travelling & incidental expenses. If this is correct I am able to guarantee your expenses to the amount of $200. & perhaps by the time that is used up I can obtain more. If you are ready to undertake it as above, please telegraph me, that I may send you the necessary documents, pottery, wooden prayers, idol &c before leaving for Montana.

Plead not for Zuni alone, but for Zuni. Laguna & Jemez (pronounced Hā-mālte) We need about $6000 for the three Pueblos My paper will give you the most information on the subject I can furnish you 300 or 400 copies of Oct No Also you might send to Harper Brothers New York for a 1.50 book of theirs called "El Dingo or New Mex & her people by W.H.H Davis"

I am writing a series of Newspaper articles on the subject that will help your canvass I am duly appointed by the Presby of Santa Fe to make these collections & I can deputize you I feel that the Lord's hand is in you offer & that his blessing will go with you. I will also furnish through you (the public offer made of photographs, pottery & Certificates) Please telegraph me if you will undertake it. Kind regards &c

S Jackson

To Rev John L. Gage

Franklin Ohio

Norton Oct. 7th 1878
Norton Co. Kansas.

Rev. Sheldon Jackson:

Dear Brother:

When I left your pleasant home last Spring I promised you that I would write you a letter.

And if mine words mean something as they ought always to do you may find this letter.

The present finds me at Norton the County Seat of Norton County, where we have had a little Church organization of seventeen members for some time. Dr. Hill wished me

to come here and so I did
in this far north west of Kans.
and I am not sorry, I hope
to accomplish something here.
The people are coming in
here fast and settling up the
country and the Gospel must
follow them and be brought
to their new homes. Norton
is a little place about like
Monument Col. yet its
prospects for the future are
better in the center of a
good agricultural country.
To be sure we are some
dis tance from the Rail Road
at present seventy five miles to the
K. P. and eighty to the U. P.
but we will have a Rail Road
here soon.

The climate is healthy and
the crops have been good this
season, we have had plenty of
rain.

We are going to build a
Church this fall yet, I see
it up in my mind with the
Spire pointing up to heaven.
The cost shall not be over
a thousand dollars and as I
told the people it must be easy
and neatly finished inspiring
adoration as one enters.
It can therefore not be [illegible]
large, we will build twenty
feet wide and thirty two
long with Gothic windows
three on each side and
two in front with a double
door between them. We

are greatly in need of a Church. The court house is very uncomfortable for the winter and the schoolhouse is not much better.

I enjoy my work very much and it gives me great pleasure and satisfaction to bring the Gospel to the frontier settlements where they are most in need of it.

I have long since learned that one must pay much attention to the little things of life to accomplish anything very great.

May these lines find you all well and happy. I thankfully remember the kindness received while in your home.

Wishing you all well, I remain yours fraternally John A. Hahn.

Bozeman Montana. Oct- 9. 1878

Dr Sheldon Jackson

Dear Brother,

Last Monday morning I rode down the valley and called on Brother Crittenden and family and enjoyed a pleasant visit-.

I consider myself more highly favored than the other members of this Presbytery- in that Brother C- is only 17 miles away. If Brother Hewitt or Russell want a social chat with a Presbyterian brother minister they must travel 115 miles; while Brother Cook of Missoula must go over ~~200~~ 180 miles. The Church building which Brother C has been erecting is advancing, and they hope that it will be ready for dedication before the year closes. The work remaining to be done consists of plastering- placing the window-sashes and the front doors- and furnishing.

The seats- pulpit- chairs and glass are at Fort Benton on the Missouri river. Mr C is anxious about getting them over before the freighting season closes.

The cost of this building when completed - and furnished with seats - pulpit and chairs, and stoves will be twenty-three hundred dollars ($2300.00).

Of this amount our church & Sunday School Erection furnish five hundred dollars. The stoves and pipe will cost about $100.00. We might say that the church - unfurnished is nearly paid for: but the furnishing of it immediately throws the valley folks in debt the amount of $500.00 or more.

The question before them is - how shall these payments be met when they become due?

Some good soul has presented them with a large bible for the pulpit. Is there any one that will pay for the pulpit desk itself? Or is there any one that will pay for one of the stoves? or for both of them? One of the Elders down there told me that he intended to try to get an organ for the church this coming winter. I hope that he will be successful.

This is the week for the Gallatin Valley Female Seminary to open. It is quite probable that this school will close at the Holidays.

Education has made a wonderful advancement

in Montana during the past three years. Our leading towns are proud of their fine brick school buildings. The people of Deer Lodge have been enterprising the past season, and open this fall their Collegiate Institute.

Bozeman has just ~~opened~~ taken a new departure. A large brick building has been erected since I came to Bozeman: and now our public school has opened with four talented teachers and one hundred and twenty five scholars and a prospect of more - so soon as harvest is over.

These steps have had their effect upon our religious and private schools. Their mission seems closed for the present. They have done their work - fulfilled the grand design for which they were organized - and will therefore reap from their labors. The Episcopal School of Bozeman closed this summer. Mr Crittenden's school will close in December next.

But one of these days some thing higher will be demanded by the people. Probably within the next five years - the public schools must advance as much as they have during the last five years, or we must

have private or denominational schools of a high grade - a young Persian Hall and a young [redacted] Polytechnic Seminary. Who shall have the ability and desire to do this grand work which lies just before us? Montana has not a few children in Eastern Seminaries and Colleges to day.

I have received a few copies of the Rocky Mountain Presbyterian - which I have enjoyed reading and hope that I may be able to show it some day in a substantial way.

Your Brother in Christian work

C. L. McLeod

Laguna, Valencia Co. New Mexico. Oct 1st 1878.

Dear Friend Dr Jackson.

I got home from Zuñi on the 7th
I could do nothing more by staying. Mr Burgess was going to Santa Fe and I came with him to Laguna. He met Dr Daly and family & their Sister three miles from Laguna they Expected back from Zuñi Saturday night, but were taken sick & detained. There could be nothing done to the house while away so left Dr Daly get done. There is no use attempting to get Mr Burgess work for pay, for none could stick here, and to build a house for labor would cost 3 or 4 times as much as by American labor. Perhaps they will hire the Pegas &c and the Lumber from Wingate. Mr Burgess will finish the house cheapest when he can get it done otherwise, except the Furniture (if any) he will make & buy the materials for $15 a thousand. I told Dr Daly he had better employ Mr Burgess just as soon as he found out that the Natives were not attending the work, & when he (Burgess) returns from Santa Fe I send you Receipts and letters. I have request

Lord if work on land just now and very
Especially to make. I hope it will be agreeable
soon. Jim Ford Speight is about over the
threat of Typ. Dr Cheek will not get out in
the mean time. Kind regards to Mrs Jackson

Dear Sir,

I telegraphed you
Sat. I could "accept with thy"
conditions" — The conditions
are I presume I withdrawing
if I found it best to do so —
and also if I so used it should
I attach by service here & re-
muneration to the amount
of $5 per week to cover Mrs. Gs-
board — I could not give
my time and wear and tear of
wardrobe and rest be out for
my expes board — I shall have
to conclude that will unders-

tal expenses - All as possible
that I may not be able to go
east But I did hire G. staff
round doubtless work up Cincin
and Dayton & probably go to
Bellefountaine and Cleveland
all of which would justify I
sending a putting and dots -
And in all probability
I can go east and give two
months & more & solid work
I want to go if possible - (and
probably I can do so) - to Cincin
myself - I told Evans to go
two solicitors yesterday and re-
ceived promises - and yet me

church collection – So you see
I am at work

If I can not count on
5% per week as part of necessa
ry incidental expenses – let me
know – I'll work all the other
churches around them any how.

I am very tired after
last night –
Good by Mrs –

New Mexico

Zuni Pueblo, Oct 15th 18[illegible]

Dear Dr Cushing; I arrived here all right on Sat last. Oct 12th just at the closing exercises of a Devil Dance. The noise was hideous. Perhaps there were one hundred people crowding at one point in the room. One of our citizens said he did not want to stay here any more than one night. We got our supper & got some corn bread from Indians to keep with us through tomorrow, & prepared our beds on the stone floor. I slept down all night on my overcoat, & did not feel afraid & was not molested in the least.

Sab 13th called a meeting, about 60 came, & had our room well filled with others so thought they would stay all night. Monday 14th we sent four Indians at the well. They dug all day & the water rolled off them. Did not get enough to

Property of the Smithsonian Institution, Washington, D.C.

water can be reached today.
Boys are just starting to dig.
The Governor says nothing will be done until water is found. Then
they will go to work.
I had the honor to present the Gov.
& Lady Ling the Cookes tassels.
I need good money. People take
prize for work & pay them a
dollar a day. They board them
selves. tomorrow I expect to put
twenty at work if we strike water
today. but the ~~chief~~ will soon
take out of our reach a strong
force on the building.
I took a cup of chewing tobacco &
candied rock candy coffee. Sugar
we could trade for. We eat
corn if some else will send her
shelling machine & we
will make all the children
who come to school two suits,
we have wool, sulphurine, but it is
not the color they want. Scarlet wool
they want. Red silver cotton handkerchiefs
pretty large they want. A good pair of
scales to put meat & vegetables
to me they would sell. Most of our

looking for one family with plans.
After studying about the plans of
the house I have decided to build
it will cost I go, first dig out and
stone up to make a good
cellar under the whole house. Four
rooms & hall on first floor, four rooms
& hall on second floor, 2 doors & 2
windows I count. If I have the pay to
give them. By building the house two
story of stone it will give more room
& not cost much more than
a big one & would be the best. It would
be the most satisfactory if the prices
were cut with the timber I
myself can put it on. The days are
very fine for working now, we work
only 9 hrs. Later, I will buy the groceries
& have forwarded for your own use &
pay you as soon as I can get
the money. It will not be long either
spring or long.
We are making an inventory of your
groceries & will send you the bill
on Board before long. You write for
an order on Board for any things for
your Christmas Cheer & I am sure that
I cannot give for your pleasure

to pay. Many (over) Expenses, which
will 65 [illegible], ($165.00)
The Indians want some money as
well as goods without money it will
not be easy to get along.
Most all of Ford's hands paid off
have asked for money.
Today we have water 17th. Tomorrow I will
have it in use. The frame is me put
up. The rock is all out and are doing good
work. It is now about 20 feet wide
and it perhaps we got more.
We'll Mr Ford just after we left Laguna
is sick & off the town. You told me that
if he could not bring any boots, that
Mr Ingersoll would look out for him
and he left nothing here. The auger
saw-shoeing knife, chisel, stone ham-
mer, Ingersoll &c. is absolutely need-
I have found pitched paper which I hate it
is for the roof if we will need any nothing
else.
18th The foundation is dug out ready for
stone is great many stone are with
round-headed on them. Burros carried on
their backs, he will finish putting the rock
tomorrow. I am doing that. The water
is very cool & fine. The Indians went light
as we will not go to [illegible] which we had from

Dear Brother-

Yours of day before yesterday received this morning. I would favorably consider a proposition to go to Laramie. Let the church write me what they will do & if they want me— I should want some information about cost of house rent road etc- Will it be necessary for me to go to Laramie first- don't want to if I can help it. & the cost of such a trip would be a consideration— Write me as soon as practicable— Mrs H. sends thanks for your kind words

Yours Bro in Christ
C. A Holm

Zuni Pueblo N. Mex. Oct 24th 1878.

Mr Jackson I have been so busy since getting back I did not go to the Office to send you one word. We have some little prospect of getting the P. Office in Zuni tomorrow I am going to the Pueblo with Lt Hall & could have found you right soon, Can any you Manuel Price all together good sheep & a few cattle and cable Lyon. You can write to Manuel Price & then you can get in a couple of the old stone foundations & have enough on the reservation to begin work. But any I should start on the bunch of Navajoes. Now, remember, we need help soon. The Indians want to go on the lumber but are not willing to

to Dixie they ask $36.00 for three wagons
By Sept 1st I can get wagons cheaper
at Kanab or Orderville that region
I will try tomorrow & if I can make
them will start the wagons immedi-
ately on my return. I write later
four days to ordain to come
on with 7 yds of muslin for a
dress for her bridal & off that
which was left here to sell on
commission.
I lay on myself school with
20 present, all large, Miss G.
taught, will not be able to finish
her school for six weeks. The girls
& women of the ward are busy
with Relief Society yet there will
be [illegible]
The well cost twenty dollars for stone as
soon as I can get at it. It took a great
many days to make steps. About 25 ft
of the depth of it. I will add about
four dollars for lumber for a box, I must

I would - Just now it thought that we had better make a memorandum of the stone boy which would be very useful for present use until I get a stone Landmark.

Hall - For Stone $30.00

Labor 16.50

$46.50

If I cannot get Mahon will buy a rough stone hammer by my hand & bit. If I shall see him you God [illegible] J Healy

Santa Fe, New Mexico
October 21st 1878.

Dear Bro. Jackson:

Your letter concerning Bro. Daly's overcoat and bedding came this morning. I will attend to the business.

Our people are at work like beavers to build a new church. It is possible the M.E. Church will send a man to Santa Fe. If he can get hold of the brainless, emotional, capricious element, which is essentially un-Presbyterian and Methodistical, I shall rejoice. A Methodist Church will not hurt us. On the contrary every good man who works for Christ wisely helps the great Cause. But we must be the first to erect a building. We must draw what money

we can get home the town for this purpose before our Methodist friends set a similar project on foot. Can you get us a hundred or two anywhere!

We expect to get an earnest and strong backing in Rochester, New York. Some of our people here will be liberal. An oyster-supper will probably be given this week to help the enterprise. There is better feeling and more enthusiasm in our congregation, I think, than I have known at any time heretofore.

Prof. Strieby, of the Academy is an important and helpful accession to the congregation. Mrs. Sharon, who has come to take charge of the school, will be exceedingly useful to our cause, I think.

I want to get married, if possible, in December, but there are reasons to fear I may come short about $200.00 (two hundred dollars) of the amount I require to justify my doing so, in which case I must wait until February or March.

Mother and Hattie expect to set out week after next, early, on their return to Pittsburgh. Is it possible and right to get them a half-fare order over the P. & R. R. R.?

If so, could you work the matter and send me the order at once!

Can you also send me soon that letter of Dr. Ellinwood's to the Western Miss. Society? I fear I have not the copy you sent me where I can easily find it.

Kindest regards of us all to yourself and Mrs. Jackson.

Fraternally yours,

Geo. G. Smith.

Canton Stark Co. Ohio
Oct 21st 1878

J. M. Reigart

Dear Sir.

The Canton Presbyterian Sabbath School Presby. of Wahooring Synod of Cleveland has contributed twenty five dollars to the "Pueblo & Navajo Mission Buildings". I have just enclosed a draft for the amt. to Rev. Dr. Wilson. Ten dollars of this were voted from our Treasury & are to pay for "a door." The remaining $15- were given by special contributions much of it from our little ones. in the shape of ten cents for an "adobe" brick. We will require about eighty certificates of stock in order to supply these little contributors. We will also be entitled to a "Photograph of one of the Old Pueblo buildings" You

may send both the photographs &
the certificates to my address

Yours very truly

(Rev) H. J. Park

Canton

(1.1.8

Washington Oct. 22nd 1878

Dr Jackson

Dear Sir—

The lamentable ignorance of the membership of our Presbytery on the Home Mission Work—demands some effort to introduce the Rocky Mt. Presbyterian.

A Committee of our Society presented the Claims of "Woman's Work for Woman at Home"—before the Presbytery—at its recent Session in this City.—And resolutions were passed, acknowledging the importance of the work.

But without knowledge there

is no enthusiasm. What way
can we best reach the twelve
churches outside the laity?
For what sum would you send
copies for the two months of the
year remaining?

Hoping to hear soon

Yours sincerely

M. E. Harrington

303 M. St.
Washington D. C.

Del Norte, Colo. Oct. 23 '78

Dear Bro Jackson,

I got home last Friday. The people all knew of the prospective change of fields, and the "Prospector" had copied from the "News" and "Tribune" the item with complimentary notices of Geo. and myself. I am waiting here for Wilson, Elder at Alamosa, to come down from the "Summit" to sign mortgage deed for money to Bd. of Church Erection.

I see the priests are after Rev Alamosa Magicians for admitting me to their houses, at least an article in the Alamosa News protesting was

67 Mexican signatures that they are good Catholics, and would burn books &c I gave them, seems to indicate it. I have a joke to tell you. I'm going to send those 67 names to C. Wales at Chicago, and ask him to mail Every one of them a copy of "Andreas Dunn" - the man of the old ladies of Etaca N.Y. said - "Take lunch". I was happy to find 64 names absent, and they the Protestantes Gomez &c.

Please tell Dunn the nearest postoffice to Cañon De Jemez and Dr. Shields name, as I want to send Ramalde Montoya's letter of dismission to him.

Mrs. Darley is delighted with the prospect of going to the Mexicans, and says she was greatly disappointed in not getting to the Navajo lashy-ar. And that she wants more than the past "Annual Calling" Christianity in a life work.

I've just written Geo. a long and detailed letter about the Change - he learned it I suppose from the Silver World.

Permit me to impress upon you the necessity of securing immediately a man in Lake City, as the Indians may not permit Geo's family's removal till Spring if much delay is made, and I understand no change

is the made till such a man is secured.

I purpose "borne" the Spanish daily now, so as increase my vocabulary. I have good hope of a valuable assistant in my Mexican labors. I laid the matter of the need of a Bible Colporteur before Mr. Goodrich when he was out here - Justice Bailey, and Justice wrote him the fact of my Alamosa trip - an answer came over my return - saying he had sent on Mr. Beaji's recommendation to the Bd. with my letter re. Beaji is a common Christian friend of Geo's & mine - and is understood, is a distributer of bibles chiefly among the Mexicans. This will be Gods saying "Let there be light" and a fine help to our labors in the Lord

with love, yours ever affly. [illegible]

Rev J. M. Roberts

Texas Laredo Mex. 10. 23rd 84.

My Dear Bro Kendal, I have not written you or heard from you for some time. I sincerely hope you and yours are all well in both body and mind. Our work there goes on as usual. Our schools are, as far as heard from in good condition.

I have heard from all within the last four weeks except Cuate which began me to visit there the last Sabb of October. I will visit Cuate again in the course of two or three weeks. Our names on roll 14. Costilla 5. San Ysidro 16 El Rosario 35 in regular attendance. We will celebrate the Lords Supper here in the morning, at Comisero the following Sabbath. Bro Mondragon will go with me up North, where we expect to visit both the schools and hold preaching services at both places if practicable.

Pray my dear Bro that we may have success in the Conejos valley also.

Miss Sal at Comisero for a teacher in Conf.

the de... and is great. He [illegible]
is among the most able yet good
acting among Mexicans. I have been
[illegible] rather prejudiced against
by teacher. He has recently visited
the school & [illegible] so far himself has
[illegible] would perform in school.

He was not a little surprised, and greatly
pleased with the performance of our
excellent teacher there Miss Ross and is
not only willing but much pleased to do all
he can to support a lady among his
own people at Canisero. It has been sug-
gested to me from two different sources
that Mrs Griffeth of Santa Fe would do
an excellent work in the Canjas field as
a teacher and Bible Reader. I will be very
glad to [illegible] the transfer made.

She is a good woman, and in my opinion
one of the best Christian workers we have
in the field. I have written her asking if
she will undertake the work. There is not
yet sufficient time elapsed for me to
have heard from her on the subject.
I must repeat here what I still believe and
have often said, we need teachers in
our work among Mexicans more than
preachers. If we cannot have both, let
us have, that most needed which will
cost the least. One Preacher at $1200
will put two efficient teachers at work.
The people all, old and young, must be
taught the simplest [illegible] of our good
Religion. The teacher can, has an oppor
tunity to teach more of these simplest truths
[illegible] day of the week, to all classes of the people
through the children, than the preacher can
teach to a few of the men one day of each week.
As a general thing the women will not go to hear a
protestant preach. And I believe we will
succeed better by using more of the native
element as preachers. This puts double
the number of workers in the field
at the same expense, renders our
work more efficient; because better
adapted to the nature and condition of
the work to be done, It adds permanence
to the work, American preachers usually
get wearied and quit; when they ought to

work as. Upon the plan we have the Mexican in the hope, further and we encourage the Mexican element engaged in the work.

It also places the whale work in a situation easy to be examined by the Mexican people by day. We expect the Mexican people or the husbands may allow them to become educating by day, both financially and financially. Can we not be more in the social room for the present than in the spirit? I have also another idea to present which will naturally flow if we adopt this as a general plan. There are starving classes of Mexicans as they. If some of the very poor among the poor. They are not able to bathe their children, even in their spirit to appear among the other children at school. And among these are orphans having neither father nor mother. They have been left to the care by dying parents to be taken of, and are practically made the wards of the family.

in my own (wagons (carriers) of water and carriers of mail coal orders &c. & third class of this class may own membership.

Now my proposition is to gather these Orphans and as many of the ragged poor as possible into an Asylum where they may be fed clad and educated. Requiring all to pay what they can. I think I can get any number of boarding pupils if I could take them at from $6 to $10. per month during the winter months. But I cannot take into my family as boarders, pupils for less than $16. per month in cash.

Now the boarding in this Orphanage and to be shall be mexican with of course every improvement we could introduce at no additional expense. I would propose to introduce one of my Sh members as in charge and employ mexican help entirely.

The majority of the people in this valley could improve their condition greatly if they

they could take in hands of [illegible] dollars per month.

If we were upon this way with wheat, corn peas, beans, beets &c &c that we must receive for tuition.

This is all many of them have to give at the different points where we have schools. I have to take everything and anything, and of course I cannot dispose of it at the same rate I must receive it. I use what I can, dispose of all I can at whatever rate, and give the remainder to the poor.

We may receive more enough to pay the necessary current expenses of the school, not much more, I mean from simple tuition.

If we can take all kinds of produce we will thereby encourage a better attendance upon school and be able to make more real value out of the produce received. This will enable me to take beef cattle sheep &c for boarding which I cannot use

We expect to have Thanksgiving services and a little feast for the lady workers. We have never given any attention to Thanksgiving Thursday before in a public way. There is a reason for the teacher at El Rancho Miss Burnham's resignation and I think it perhaps may work. I have done what in my power to induce her to remain the remainder part of the year but it is in vain. What shall I do? Will you commission another teacher for El Rancho? I will provide a teacher to keep up the school. I fear I know you. I guess all will accept a little change through among the children.

All write in sending regards and much love to yourself & Mr. Kendall.

Yours very truly

Jane Roberts.

up at present. I am fully aware that we shall meet priestly opposition on every side especially just at first, but this we expect. Now if I can have your moral support in this, that may be deemed so much as a new departure I shall receive perhaps material help from other sources sufficient to make a beginning. If we can secure 10 or even 6 pupils this year all right. In my opinion this is a good place to establish such an institution. It is healthful, the soil is productive the people have no easy market and are not likely to have. The people are interested in education and are less fanatical papists than in other sections of the country.

What do you think? Is it a practical thought? Is your opinion the same as mine — that such an institution is needed — and is this the place to put it?

Please speak plainly. Do not hesitate to say no!

Dr Sir-

I sent this morning Dr Wilson my Bro Yorks draft- y $20 from Park Church Sab Sch of Erie Penn^{a} for Pueblo Navajo - Will you send to my address certificate y Stock for Fifty Scholars- Please send the Separate certificates in blanks and I will not trouble you to insert the Names -

Very Respectfully Yr

S. S. Spencer

Del Norte, Colo. Oct. 24, '18

My Dear Doctor,

I enclose you a copy of the Church letter of dismissal I have prepared & signed & Penrad to Montoya, in care of Hinds, when I hear from you of their address.

I had a very pleasant call from Don Pablo Ortega this noon - and his nephew. Ortega informs that the Padre investigated the article signed by the 67 of which I wrote you yesterday. That he also preached that Protestants were going to hell, and though there might be some hope for Protestants, even such, there was none for Papists become Protestants. I told Ortega that was bad for him, at which he laughed. He says he is very much

pleased at the prospect of having me with them.
He says that all the children of this plaza, as well as many across the river, besides relatives of his own - many of all 3 classes - Papist - are anxiously waiting for the school at Linares - and will not send their children to the Convent at Conejos on account of it's coming.
Ortega seems a little irritated at it's delay. When we take into consideration that he began his Protestant Efforts in '63 - 15 years ago - by securing a legislative act authorizing a graveyard not under Papal Control - he has waited long for the desire of his heart, especially as he believes schools blow the best agencies for Evangelizing the Papist. We had a good long talk, and Mrs. Darley & our Company sang Scripture in Spanish. Ortega's nephew who cannot read, was delighted to find another song of his favorite tune of "Greenland's Icy Hills" to which he knows our Spanish hymn.
Ortega thinks the Jesuit attempt on the Alamosa will do good for our cause.
He wants a school house badly at Linares - thinks the Church ought to have the first one. I assured him that that was the intention. 4 more members there desire baptism as well as some at Los Sauces.
Yours fraternally Alex. Hardy

I believe this is the first Church letter ever given in Colorado - and possibly New Mexico - to a Mexican Presbyterian.

I have been
declined an invitation to
act as solicitory Agt for the
Central City Funds - but
cannot be any expected for some
Yrs - Thanks to you - but I
could not undertake it -

Mrs. Grand & Sam have been
much interested in the last
number of the Rec. Funds -
was glad to see it - Grand-
ma occasionally hints that
that I might help her and
the cause, he appears to act
& direct a house of prayer -

I believe I could if authorized (raise $2000?) At least I might be willing to undertake it.

I have not considered the matter long – But Mrs. G. and I have thought favorably of the suggestion as we have talked the matter over this eve – Could you in any way pledge expenses – so that every cent raised could be turned over to the Board.

Chs. and F.S. could thus be credited with full amount of their contributions – It would help me if I could say @ mass. to those addressed – What do you

think of the matter—

I have been kept near home on account of my unfortunate condition—(anticipated confinement with a very sick pregnancy) which has made it undesirable to be from home as of long—

I hope however to be able to move more freely now shortly— So I hope to hear from you soon—

Those Packets missed can be latter on easily and effectively— I would not ask a better subject— Should I undertake this work how could

-lost past recall - What
book would it pay to read -

In my missionary
addresses I have found
ministers and Ch. much in-
terested in the Sunday School
I had gathered facts from Mr. Perry
and others who visited them -

Though not settled I am em-
-loyed every Sab -

Regards to Mrs. L -

Yours Truly

Oakland, Cal., Oct 28 1878

My dear Mr Jackson

Yours was received today. Important work in Utah will occupy me for a month or six weeks. In the meantime I thank you for the information you have given me of the vicinity. I wish you could visit that vicinity, find some good men at work, & then come on this way & help me to rouse our people in behalf of Utah. I believe you could do it & the cause very much.

We need help to encourage our strength on the one work I got the Lord to take strong action in this direction which I hope will greatly increase the contributions for Utah.

This is the object proposed
Our best men are with me
in the effort. The Board pass
we with aiming it like pas-
dence. Will we do want to
raise enough for the support
of our work. Will work this
is the best way we can help
the Board. We are true men
to be loyal to the Board.
Now if you can visit us this
extend your trip to Lodi let
me know. I will assist
you in anything you can
do for the cause. Our best men
are thoroughly with me all the
time.
I send you the Decision with
my report attached.
Yours truly,
Thomas Nelson
P.S. My wife remembers you
with great pleasure, reads
your paper & lends it around.

Dear Sir. Thave just forward to Rev. A. Rivison Missionary House New York, a draft for $25.00, being a contribution from the Sunday School of the 1st Presbt Church of this City for the Christian people at Zuni New Mexico, in their efforts to build a Church - Our School would like a picture of Zuni, which may be sent to me. There are 142 scholars who each contributed to this fund. If all are entitled to certificates, they may also be sent to me. Hoping the work may find some encouragement from this Contribution I remain

Yours Truly

BOARD OF HOME MISSIONS OF THE PRESBYTERIAN CHURCH

P. O. Box 3863. No. 23 Centre Street.

New-York, Oct. 24th 1878.

Dear Dr Jackson,

That matter of the last check issued to Shields receive attention long before your letter came.

As to Mrs Graham's Society and the Assembly's Committee of Ladies I have nothing to communicate for publication. Privately I have this to say — The Synod of N. York appt Mrs Graham & Mrs L. K. Beach to represent the Society of N. York, and I understand the arrangement is in every way satisfactory to Mrs G. —

An Executive Committee of Ladies from the 3 near by Synods would make a strong team. So far everything seems to be satisfactory to all.

Yours O. D. Eaton

Rev. Thomas Fraser,

916 MYRTLE AVENUE,

Oakland, Cal., Oct 30 1878

Dear Br. Jackson

I have learned that Petrolia is soon will be vacant. the young Mother then you Enter. We need a man for that field & probably one for Fernandale & one for Loleta. There are more than for any of those fields. I need at least six good men for fields in Calaveras & Vacant counties & one at very important such as Stockton, Placerville, Gilroy & other more directly under my care, such as Vallejo, Mare Island & Benicia, Alameda, Hayward, in this vicinity Berkeley & Temescal.

A few men are working at little here, but if any man now at land took a field, only our vacancies would remain unsupplied.
This is a great weakness. If you know good men either wanting a change or needing employment send them to me.
I could locate quite a number just now.
And must depend on you to find men for stations.
Let the Board commission you a good man for that locality or off on a long trip but letters will be true to me.

Yours truly
Thomas Eaden

Morristown
Morristown N. Jersey
Oct. 31st 1878

Rev. Sheldon Jackson

Dear Sir:

The Missionary Society of the Sabbath School of the South Ref. Presbyterian Church, Morristown, (Rev Albert Erdman pastor) recently donated fifty (50.) dollars, to go towards the building of a missionary's house among the Aztec Indians in N. Mexico. Having read your articles in the papers, in regard to that mission field, they became interested in the work in connection with these Indians:

Especially in respect to a house for a missionary to live and teach in. As your statement said the windows & doors would require about ten dollars each, they did like to have the money go in that direction if possible, otherwise I suppose for the house in general.

The amount I gave to Rev Dr. Wilson, (payable to M. J. Ogden, treas.) of The Ch. Erection Board, at the Mission Rooms here in the city. He told me they were receiving monies for those fields. I told him the School wished it to go for one of the missionaries homes, and he said, therefore a home was being built at the Zuni Mission, so he took the money for that place.

Can you give me the name of the missionary there, and his address, I would like to write & learn, also, as to what progress has been made so far, in the building.

Yours very sincerely
Walter Graves
Pres. Mining Soc'y.

Oct 31. 1878

Rev Sheldon Jackson D.D. New York City

My dear Friend -

I have been trying for the last five days to write you, but with Committee and Meetings, and a host of other matters, & an obstinate Headache from over fatigue, I have not accomplished it. The Leaflets came in due time, for which many thanks. I put one in my letter & write, yesterday brought me response in the form of a check for Alaska Boys. It was the result of interest from the leaflet. The Photographs also came safely, & I shall use them at some Church Meeting which I am now holding -

& hope they too will bear fruit - The expense of these I ought to bear if you will let me know. Your Boys have been kept to their Tailoring - One personal - The remainder for use for the Home - She wanted $100 as the price of each girl, but it would be impossible to get Scholarships for that amt I have given out two at $50 - These must be some sort of fund to meet running expenses of School. I fear her mind would lead to doing too much - The girls should be kept on the plain food of their own homes & I am glad to learn that a Lady talks of giving an endowment to the School, but it will not be large - Very little helps & Rome was not built in a day -

I have felt anxious to learn of the progress of Building at Izmir - have been waiting to write Mrs Ealy, but time has failed - Dr Kendall being so long absent, has put some of my Correspondence in the back ground, & awaited his decision & advice -

I am sorry that Mr Smith takes part against our School, declaring himself so actively in favor of the other & refusing even to visit or leave any thing to do with ours It seems to me he forgets that he is a Minister, & under appointment of Home Board, & that his duty lies manifestly in that direction - When he went down we agreed to let him have two rooms in our School Building, & he has taken possession as if it belonged to him - The money was raised for a School, & there are those here in New York, who would call us to account for a

know use of the funds, if we did not use it for that purpose. One of our largest donors refused to give any more, while the S. was even in Santa Fé - I could say a great deal but refrain - I think Miss Sharon is the right one - I hope she is - I have told her to use all courtesy to the S. as a Minister of Christ - but this is the only claim I now feel that he has to any consideration from us.

I am going to send you pretty Xmas Certificate to a D.D. hoping it will cheer somebody for we live much in this world by much of the seen & tangible rather than the invisible things - Greeting Xmas, with many thanks.

Julia McGraham
